DETAILED ACTION

Reasons For Allowance

1. Claims 1-42 are allowed.
2. The following is an Examiner's statement of reasons for allowance:
3. The cited prior art taken alone or in combination fails to teach the claimed invention of planning and scheduling, as claimed by Applicant. Specifically, independent claims 1, 4, 7, 18, 21, 29, 32, and 35 disclose "defining a maximum energy $E_{\max(r, T)}$ variable to represent a maximum energy of the resource r that can be used during a single time bucket T , and maintaining a constraint on a product of the $X_{(p, T)}$ variable and the $EPC_{(p, r)}$ variable, summed over the process p , to be less than or equal to $E_{\max(r, T)}$."
4. The closest prior art of Wuchinich et al. teaches energy scheduling in the context of a scanning apparatus but fails to teach or suggest "defining a maximum energy $E_{\max(r, T)}$ variable to represent a maximum energy of the resource r that can be used during a single time bucket T , and maintaining a constraint on a product of the $X_{(p, T)}$ variable and the $EPC_{(p, r)}$ variable, summed over the process p , to be less than or equal to $E_{\max(r, T)}$." To the extent that this feature is not found in the prior art cited by Examiner, the present case is found allowable over the prior art cited by Examiner.
5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
